

238 OF BIBLE STUDENTS IN ACTIVE WORK

Training Here Is Sufficient in Majority of Cases But Many Continue at Other Schools.

ONE OLDER INSTITUTION

"Our Greatest Problem Is to Acquaint Students With Course of Study," Says Gibbs.

Two hundred and thirty-eight of the students who have taken work in the Missouri Bible College in Columbia since 1904 have gone into ministerial or missionary work. Since 1906, thirteen students have left here to take up work in the mission field. According to G. D. Edwards, dean of the Bible College, these missionary workers have been sent to Japan, China, Russia, Honduras, India, Mexico and South America.

Newton T. Gottschall, who has just returned for missionary work in the Orient, was the most recent University graduate to do this work.

According to Prof. W. C. Gibbs, there are many prominent ministers in Missouri who are former students of the Bible College and there are other men and women, graduates of the University, who have been in the religious work of the world since they were in the Bible College. He said, however, that further work in larger schools of theology is desirable. The majority of these who continue their work after leaving here enter the University of Chicago, Yale, Harvard, Union Seminary, at Columbia University.

"This school," said Dean Edwards, "is one of the pioneers in instituting religious education along with the state universities. In establishing the school, in connection with the University curriculum, Missouri is second only to North Dakota. In 1893, the work was started in the Christian Church. This institution was not started until 1904."

The school began with two members in the faculty and with an enrollment of 51, which gradually increased to 238 before the year but is now 209. We have an endowment fund of more than \$75,000 and own property valued at \$70,000.

"Our greatest problem," said Professor Gibbs, "is acquainting the University students with our course of study. While the school is not a part of the University and our courses are not listed in the University bulletin, the courses that we offer may be taken for University credit. Twenty-one hours of the work will be credited toward a University degree, fourteen hours of which will be credited toward an A. B. degree.

"We are making an effort to combine all religious studies in this movement to make the work inter-denominational. At present there are three members of the Christian Church and one member of the Presbyterian Church on the faculty. We have extended an invitation to the Methodist and Baptist Churches to elect a teacher to represent them on the faculty."

IS NAMED U. S. ATTORNEY

G. H. English to Succeed White as Assistant District Attorney.

George H. English, who was graduated from the University of Missouri in 1899, has been appointed assistant United States district attorney at Kansas

City to succeed David L. White. Mr. English was appointed by J. W. Sullivan, newly appointed United States district attorney.

Mr. English received the degrees of LL. B. A. B. and A. M. from the University of Missouri. Since then, he has practiced law in Kansas City, except for time he served in the Spanish-American and World wars.

UNIVERSITY NEWS

The Zeta Beta Tau fraternity announce the pledging of Nathan Jacobs of Omaha, Neb.

The U. L. B. of the Knights of Columbian Student Honor announces the initiation of Henry A. Christmann last Saturday night.

Miss Teresa Wilson has returned to her home in Lexington after visiting Miss Katherine Wilson at the Kappa Kappa Gamma house.

Frank W. Herndon returned yesterday to his home in Kansas City, where he will remain until the opening of the second term.

C. E. Kane, University publisher, has announced that the schedule of courses for the winter term is now in the hands of the printer and should be ready for distribution about December 15.

H. O. Severance, University librarian, announces that he is now keeping a collection of catalogs of various dealers in second-hand books. The library members are invited to order such books.

Plans were completed yesterday for the organization of Delta Lambda, a society of young men who intend to become ministers. It is expected that membership of twenty or more will be reached next term.

Word has been received in Columbia of the birth of a son to Mr. and Mrs. Fred C. Wright at Kankakee, Ill., December 2. Mr. Wright was an instructor in chemistry in the University in 1916. Mrs. Wright was graduated from the University in 1917.

Miss Lela Cox, a graduate student in education, and Miss Alice Still, College of Arts and Science, visited Miss Still's married sister, Mrs. Joseph Holbrook, in Jefferson City, over the week-end. Mr. and Mrs. Holbrook are both graduates of the University.

The Rev. Walter M. Haushalter will speak at the regular meeting of the Y. W. C. A. Thursday afternoon in the University Auditorium. This is the second in the series of Christmas meetings which the association is having this year. The Presbyterian quartet will sing. Miss Frankie Wilson will lead the devotions.

Alpha Kappa Psi, professional commerce fraternity, has initiated the following: L. R. Ballard, Mankato, Minn.; O. L. Weber, Kansas City; E. A. Cronk, St. Joseph; G. F. Kerr, Marshall, Mo.; H. E. Hittman, Kansas City; F. D. McDonald, Moberly; J. W. McGowan, Carthage; J. C. Farris, Jr., Bentonville, Ark.; L. T. Noel, Tarkenton; S. F. T. Packwood, St. Joseph; M. M. Henderson, Coffeyville, Kan.; and W. E. Williams, Butler.

MAINLY ABOUT PEOPLE

Herbert White went to Moberly today. Mrs. T. M. Maugh and T. M. Maugh, Jr., left for St. Louis today.

Mr. and Mrs. J. R. Jordan went to Centralia today on business.

G. R. Summers went to Sturgeon on business today.

J. E. Sykes left today for Poplar Bluff on business.

Davis Kluge left yesterday for Louisville, Ky., on a business trip.

Mrs. Wells Burnett left today for Moberly to be the guest of Mrs. Wilcox Gray for the week.

Miss Frances Palmer, who has been visiting in Columbia, returned to her home in Centralia today.

R. L. Willits went to Moberly today.

Walter Ridgeway left today for Clark, Mo.

George T. Costard, secretary of the International Committee of the Young Men's Christian Association, was in Col-

No Nonessentials in Futurist Art; Samples to be Shown Here

A collection of futurist paintings is to be exhibited in the Faculty Room of the University Library soon. The exact date of the display has not been set. These pictures will give art students and artists a chance to form a more specific idea of what futurism stands for.

The revolutionary movement called futurism, which was originated in 1907 by F. T. Marinetti, a journalist of Milan, Italy, tends to eliminate the unessential in art and in literature. Applied to painting, it seeks to translate the idea of motion into plastic art. In poetry, it seeks freedom of expression by disregarding such laws of rhyme and grammar as may seem to hamper the freedom of expression. Futurism has penetrated prose writing in literature; it has affected sculpture in art.

The following lines by Alfred Noyes give a hint of the popular conception of futurism in sculpture:

"Enough of toil, I hear the sculptor cry. 'Why should my passionate soul in chains be led? To wrest my Venus from her marble bed. Let her be buried deep, from foot to head. In rough-bewn rock, with one toe peeping thru. Suggestion is the finer art,' he said; And by the by, it looked much easier, too."

A high price is placed on originality.

French's diagnosis is not commented upon.

Alderman Liam de Roiste, Sinn Fein M. P. for West Cork, and one of the leaders in the attempt to divorce Ireland economically from England, proffered an interview with the United Press with reference to Lord French's statement. "Ireland has too many young men," said Mr. de Roiste, "if the country is to be kept purely agricultural and Irish industry handicapped by unfair British trade regulations."

"For the moment," continued De Roiste, "the majority of Irishmen are welded together in an endeavor to throw off the British yoke. Labor is found backing a decree by the Sinn Fein parliament, namely, the order forbidding emigration, which on its face in the present state of industrial development is inimical to their own interest."

"There is a surplus of labor that cannot be used on the tiny farms and that works to the disadvantage of trade unionism. If emigration is completely restricted, it will mean the saving to the motherland of forty thousand young men who before the war annually sailed from the port of Queenstown for America."

John St. Louis Law Firm.

Judge Fred L. Williams, presiding Judge of Division No. 2 of the Missouri Supreme Court, will become a member of the law firm of Willey, McIntyre, Hensley & Nelson of St. Louis. Two members of the firm are graduated from the School of Law here. They are Joseph S. McIntyre and Earl F. Nelson.

Emigration Has Been Stopped and Labor Surplus Results.

By RUSSELL BROWNING.

(United Press Staff Correspondent.)

Cork, Nov. 18.—(by mail).—"The trouble with Ireland is that there are too many young men," said Lord French. These are about the only words of the victory that are quoted in Ireland. But it is a rare discussion of Irish woes, political or economic, where Lord

LARGE CEREAL CROP REPORTED

Conditions in Southern Hemisphere Promise Excellent Yields This Season.

The 1920-21 cereal harvest, which takes place in the principal grain producing centers of the Southern Hemisphere from November to March, has throughout the entire growing season given promise of excellent results, according to a summary of the foreign crop reports recently received by E. A. Logan of Columbia. The critical stages of vegetation have been passed through by both Argentina and Australia, although the bulk of their crops will not be cut until December or January.

Rains have recently fallen in Argentina, and indications point toward a favorable harvest. The latest official returns of the area of wheat sown during the season show 16,062,000 acres, as compared with 14,957,000 last season. While no official reports of production have been received up to date, still unofficial reports continue to place the amount of wheat to be produced during the present season as high as 244,000 bushels.

The sowing of winter cereals has been carried on recently throughout the Northern Hemisphere with exceptional activity, the beginning of the work having been delayed in some European countries by persistent droughts. Although no official statistics of acreage are yet available, the report states that there are favorable indications that full areas have been sown.

City Seeks Fraternity Conclaves.

Letters were mailed yesterday from the Commercial Club to all the local chapters of national fraternities and sororities urging them to lead their efforts toward bringing the national convocation of each body to Columbia in either 1922 or 1923.

TO FIGHT "RED PLAGUE"

National Campaign Will Be Levelled at Social Diseases.

WASHINGTON, Dec. 7.—Physicians and noted men from all parts of the United States will meet here today for a week's conference to plan a nationwide campaign against the "Great Red Plague," a phrase invented by the United States Public Health Service to stand for two social diseases.

The conference was called by Dr. Hugh Cumings, surgeon-general of the United States.

Practically certain cures have been discovered and proved by medical science for the most common social diseases, according to officials of the health service. To be effective in combatting the diseases in the United States, the cures must be understood by the public, officials point out. How to get the facts across convincingly will be one of the problems to be discussed.

General Pershing is one of many noted men who have accepted invitations to attend. Pershing is expected to describe the methods used by the military authorities to protect the A. E. F. against disease in France and later in Germany.

STUDY PROBLEM A QUESTION

Mrs. Charters Quizzes Students at Stephens College.

Mrs. W. W. Charters is visiting at Stephens College for several days in connection with her psychological research work on the problems of students' method of study.

Mrs. Charters met the girls and explained to them the problem on which she is working, and asked them to answer her questions fully concerning the easy or trouble with which they progressed in their school work.

Mrs. Charters found that students seldom know how to proceed to grasp a new subject of study. They do not understand the type of mind they have and what methods to pursue to create a con-
